

## LEGISLATURE GETS AUDIT REPORT

ELECTION BILLS  
TO BE OFFERED  
IN LEGISLATURE

Provide Nonpartisan State Election, Same as on County Candidates

## SEPARATES U. S. OFFICES

Candidates for U. S. Senator and Congress Nominated Separately

Two bills providing for new election methods, including a nonpartisan state ballot, were ready for introduction in the legislature today. The first bill provides:

Party primary election on the third Tuesday in March of each presidential year, at which nominations shall be made for candidates for the offices of presidential elector, United States Senator, member of Congress and election shall be made of delegates to the national party conventions, national committeemen and party precinct committeemen.

On third Tuesday of March of each even numbered year, other than presidential election years, primary shall be held for nominating party candidates for United States senator, if any are to be chosen, for member of Congress and to elect party precinct committeemen.

Names of candidates to appear on separate ballot for each party with title "United States ballot" and with party designation at top. Nominations may be made by petition, filed with the secretary of state.

The second bill provides:

Separate state and county primary ballots entitled "Primary Nominating Ballot" for state office candidates and "County Primary Nominating Ballot" for county office candidates.

Double number to be elected to any office shall be nominated, as two for Governor and six for railroad commissioner.

June primary retained.

The bills were drafted by Theodore G. Nelson, secretary of the Independent Voters' Association. In a statement explaining his attitude on the measure Mr. Nelson says:

"Cause of Cure—Much of the social and economical unrest in our midst is due to faulty election laws and flaws in the machinery with which we assemble our government. When some people are asked what our Government consists of, they answer, the people. This is wrong, the people are not the Government, they make the Government. Our government consists of officials that are elected or appointed for public service. Much of the election machinery in our state and many other states is built to serve individuals or classes who want to make use of the government for personal profit politically and otherwise.

"Two things are required in order to have good government. First: Every citizen's conception of his duty to state and nation must enable him to lift his political thinking above mercenary consideration, personal ambition, or petty revenge. A desire to promote the common good must wield the greatest influence in the mind of the individual citizen when deciding what to do in political matters. Second: The machinery of our government must be such as to make every reasonable citizen feel that he has had a fair chance to get his ideas enacted into law, or to get his choice among the several candidates selected for public service, even when he loses out all around.

"Everybody of course realizes that we cannot have popular government without political organization on a party basis. We must have some way of fixing responsibility for what is done, or not done, by our government. We cannot have that if our government consists of a number of individuals responsible to nobody and working with nobody. When our form of government was planned it was deemed wise to build from the bottom up, therefore, our government was divided into political units along lines that would insure the greatest efficiency.

"Our school districts, townships, drainage districts, road districts, etc., are all more or less interwoven in (Continued on Page 3.)

STOCKHOLDERS  
IN RAZOR CO.  
START ACTION

A. G. Diver, Fargo attorney, has issued a letter to contributing stockholders in the Collins Safety Razor company explaining action taken by him and by South Dakota stockholders, representing about 20,000 shares, who joined with the Protective Association of Grand Forks, representing North Dakota stockholders. The South Dakota stockholders employed an attorney who went to Chicago, and entered a protest in court against the sale of the property. The association formed at Grand Forks hopes to bring all North Dakota stockholders into it to join in the efforts being made in their behalf.

COMMISSION  
TO PRESENT  
ITS REPORT

Under Law Annual Statement to Be Filed Feb. 1 With Secretary of State

AUDIT COMPANY WORKING  
To Make Material Reduction in  
Force of Home Builders  
Association

A second report on the state industries will be presented by the Industrial Commission by February 1st, according to John N. Hagan, member of the commission. The report is the annual report required of the commission. Mr. Hagan said.

Reports circulated in hotel lobbies to the effect that the new state board of auditors was making an examination of Bank of North Dakota developed to be the audit of the industries being made by the Industrial Commission.

The Equitable Audit company was employed by the Industrial Commission to make the audit. This firm, it is understood, did a part of its work weeks ago and is now finishing up its report.

Home Builders' Out.  
A material reduction in the force of the Home Builders' association is also coming in the very near future. Reports that there was to be a general shake-up in this report brought the answer from administration men today that the force will be out only because there is no work for the force during the winter or finances to carry on extensive work.

Commissioner Hagan said that the work would be practically suspended when some houses near completion are finished. He said that it was only natural that the force should be reduced when there was no work left, including the administrative force of the organization. The appropriations bill in the senate carries \$50,000 a year for two years for general expenses of the Home Builders' association, including salaries.

SAWYER BANKER  
DIES IN MINOT  
POLICE STATION

SON DIES ALSO  
Sawyer, N. D., Jan. 25.—A. Tofflemire, 84, died at the home of his son here today. His death is believed to have been caused by the death of a son, John E. in Minot.

Minot, Jan. 25.—The contents of the stomach of John E. Tofflemire, Sawyer banker who died in the Minot police station after being picked up by the police who found him in a helpless condition on the street, will be sent to the state laboratories at Grand Forks for analysis to determine if poison whiskey was the cause of his death. The coroner's jury, consisting of Fred Almy, L. A. Cory and John Nelson, held an inquest yesterday afternoon and adjourned for one week until a report is received by Coroner R. W. Pence regarding the result of the analysis.

F. S. Tofflemire, brother of the deceased man, arrived in Minot early today and arranged for the funeral to be held tomorrow at 3 p. m. at Sawyer. Friends of Mr. Tofflemire believe his death was due to heart failure and their theory was partly borne out by a postmortem examination conducted by Coroner Pence yesterday. Dr. Pence found evidence of heart disease when the heart was examined.

It has been learned that Mr. Tofflemire had a hundred dollar bill on his person when he came to Minot and the police have been asked to ascertain where the bill went to. When taken to the police station, Tofflemire had \$6.39 in his pocket.

No trace has been found of the bottle of whiskey taken from Tofflemire which was stolen by someone in the crowd which gathered at the police station when Tofflemire was carried in.

## STATES ATTORNEY HERE.

J. B. Nevlin, state's attorney of Walsh county, is in Bismarck today. He left on the afternoon train on business in Mandan.

## WHAT'S HUSBAND WORTH? \$500,000, DECIDES MISSOURI BRIDE

GAS DROPS  
TWO CENTS ON  
CHL. MARKET

Reductions Announced by Standard Oil Company of Indiana  
Chicago, Jan. 25.—The Standard Oil company of Indiana today announced a reduction in the price of gasoline of two cents a gallon.

ERICKSON MUST  
FACE MURDER  
CHARGE ROW

Slayer of Minot Policeman Is Arrested by Officials  
Minot, Jan. 25.—Arvey Erickson, alleged to be a whiskey runner, was arrested today on a charge of murder in the first degree. Erickson shot Lee Fahler, policeman, while he was being placed in arrest, his victim later dying.

'NURSING' IS  
STATE'S PLAN

A "nursing" policy is being adopted in the banking situation in the state, according to O. E. Loftus, state bank examiner. The fact that none of the closed banks have reopened does not indicate that they will remain closed, the examiner said today.

DENY FRANCE  
SEEKS LOAN

New York, Jan. 25.—It was officially denied today by representatives of the French government that France was attempting to negotiate a loan of \$1,000,000.

FIRE DESTROYS  
LARGE PART OF  
CITY OF ATHENS

Athens, Ga., Jan. 25.—A large part of the downtown district of this city was a mass of smoldering ruins today, the result of a fire which for a long time threatened to wipe out the entire business district of the town.

JAPS CRITICIZED  
FOR OCCUPYING  
RUSSIAN SOIL

Tokio, Jan. 25.—If Japan had withdrawn her troops from Siberia when the United States did so, she would not have been open to the charge that her ambitions were militaristic, declares Viscount Kato, leader of the opposition attacking Siberian policy.

WHEAT MARKET  
HOLDS ITS OWN

Chicago, Jan. 25.—Short selling on the stock exchange had a varied effect on the wheat market. Wheat dropped one cent followed by recuperation.

TWO CENTS ON  
CHL. MARKET

Reductions Announced by Standard Oil Company of Indiana  
Chicago, Jan. 25.—The Standard Oil company of Indiana today announced a reduction in the price of gasoline of two cents a gallon.

DECLARES COAL  
BARONS FLEECE  
PEOPLE OF BILLION

Washington, Jan. 25.—The opinion that the American people were "fleece" of a billion and a half dollars last year by the men in the coal trade was expressed by Senator Capper, Republican of New York, who was a witness before the senate committee considering the bill for federal regulation.

RIOTING BREAKS  
OUT IN INDIA

London, Jan. 25.—Fresh rioting has broken out in the Nyzaha district of India and troops are being sent there.

ADVISES CONTINUANCE  
OF AIR MAIL SERVICE

Washington, Jan. 25.—President Wilson today transmitted to Congress a report from the national advisory committee on air service, urging a continuance of the aerial mail service as a necessary means of development of air mail.

## FIRE LOSS IS MILLION.

New Haven, Conn., Jan. 25.—A fire which early today destroyed a department store and spread to several other stores, did damage estimated at \$1,000,000.

VOUCHER NOT  
SHIPBUILDING

New York, Jan. 25.—Positive denial that any part of the \$260,000 expense voucher made out to Charles W. Schwab was ever charged to shipbuilding was made today by the general auditor of the Bethlehem-Steel company, in testimony before the Walsh congressional committee.

FIRE DESTROYS  
LARGE PART OF  
CITY OF ATHENSProperty Damage Three to Four  
Million in Southern  
Blaze

Athens, Ga., Jan. 25.—A large part of the downtown district of this city was a mass of smoldering ruins today, the result of a fire which for a long time threatened to wipe out the entire business district of the town.

JAPS CRITICIZED  
FOR OCCUPYING  
RUSSIAN SOIL

Tokio, Jan. 25.—If Japan had withdrawn her troops from Siberia when the United States did so, she would not have been open to the charge that her ambitions were militaristic, declares Viscount Kato, leader of the opposition attacking Siberian policy.

WHEAT MARKET  
HOLDS ITS OWN

Chicago, Jan. 25.—Short selling on the stock exchange had a varied effect on the wheat market. Wheat dropped one cent followed by recuperation.

ATTORNEYS WILL BE NAMED TO  
HOLD SEARCHING INQUIRY INTO  
ALL PHASES OF INDUSTRIES

Report Is Voluminous Document of 400 Words and Will Be Made Public Probably Late Today.

John Sullivan and Francis Murphy May Conduct Probe in Connection With Bishop-Brissman Audit. Accountant Brings Report to City.

The audit report of state industries was submitted to the state legislature this afternoon.

E. J. Grace, representative of Bishop, Brissman and company, of St. Paul, arrived in the city on a train at 11:35 o'clock this morning with the report.

His instructions were to deliver the original of the report to the state auditing board, composed of William Lemke, president, D. C. Poindester, secretary, and Thomas Hall, and to deliver one copy of the report to Speaker L. L. Twitchell of the house and one copy to Lieutenant Governor Howard Wood, president of the senate.

## GIVEN TO SPEAKER.

Immediately after the report was delivered in the house of representatives it was to be turned over by Speaker Twitchell to Representative M. O. Grangaard, of Barnes county, chairman of the investigation committee of nine authorized by the house and appointed by Speaker Twitchell.

This committee will meet in executive session tonight to organize, select attorneys and plan for its investigation to determine the correctness of the audit and the condition of the state industries.

Hearings probably will start tomorrow. They will be held in the Burleigh county courthouse. It is probable that they will be held in the morning only, so that members of the committee will not be required to absent themselves from the sessions in the afternoon.

Nothing but conjecture upon what the much heralded report of the Bishop-Brissman audit report on the state industries would contain was gleaned today. Speaker Twitchell had a copy, a copy was in the hands of the senate and the state board of audit had a copy and were in conference upon its contents.

It is expected that a formal statement will be made Wednesday to the press explaining the features of the report.

## Discusses Loans

The fact was learned unofficially that the report will discuss the various real estate loans of the Bank of North Dakota and question the judgment used as to amounts loaned and upon valuations made for purposes of the loan.

## Lack of Records

It is also urged that the report will call attention to alleged lack of records and books as far as the homebuilders association is concerned. The report was prevalent too that the accountants had connected up certain politicians with the placing of loans.

## Indicates Course

Speaker Twitchell in presenting the letter of transmittal to the house indicated the course that would be followed in handling the report.

The letter from Bishop-Brissman stated that the firm had been assailed in the press, but that it assured the legislature that the report was without bias and that there was no prejudice in arriving at conclusions and that the company would furnish an accountant to explain the report.

## Partial Audit

It was further stated in the letter accompanying the report that the audit included an examination of the Bank of North Dakota, a partial audit of the Drake mill and the Homebuilders' association. There had been no time in which to audit the Workmen's Compensation bureau.

## Cost of Examination

Two supervising accountants had been assigned to the task at a cost of \$25 a day and expenses and that 10 assistants at a cost of \$17.50 and expenses had been detailed.

A resolution was introduced by the house appropriation committee to pay \$12,000 for the audit. A minority of the committee moved for indefinite postponement. The majority resolution went on the calendar and will be discussed Wednesday.

## Doyle Resigns

Representative Doyle, who is on the house committee to consider the report, resigned on account of poor health and his place has been filled by the appointment of Rep. Roy B. Weld of Wells county.

In the senate the report was received and referred by Lieut. Wood to a committee headed by Senator Liederbach.

State Auditor Poindester received a copy and the state board of audit went into conference upon the matter.

ILLINOIS VICTOR  
OVER MINNESOTA

Minneapolis, Jan. 25.—Minnesota met defeat at the hands of the Illinois quintet last night in the University of Minnesota gymnasium by a score of 22 to 20.

SENDS NOTE  
TO MEXICO

Mexico City, Jan. 25.—The United States has presented a note to the Mexican government regarding the alleged invasion of American petroleum possessions.

WHEAT MARKET  
HOLDS ITS OWN

Chicago, Jan. 25.—Short selling on the stock exchange had a varied effect on the wheat market. Wheat dropped one cent followed by recuperation.

# FOLSOM'S AUCTION SALE

## Was Closed Saturday Evening, January 22nd,

The citizens of the city and visitors have made this sale a success for which we thank you one and all.

The merchandise sold at this sale was strictly high-class in every respect, and if anyone of you have any article that is not as represented, please mention it at once for adjustment.

All watches sold during this sale are absolutely guaranteed and will be replaced if not satisfactory. We have a large number of articles bought during the sale which you made a deposit on.

According to the terms of the sale you will have to call for them some time this week, take same out or arrange with us as to the disposition of same or you will lose your deposit.

Please attend to this during this week if you have not already done so.

You will find us still doing business at the same old stand.

## PRIZES OFFERED BOYS AND GIRLS FOR BEST ESSAY

North Dakota Dairymen's Association Announces Rules for Annual Contest

### TO MEET IN JAMESTOWN

Boys and girls of the state have an opportunity to win prizes in the essay contest conducted by the North Dakota Dairymen's and Buttermakers' association, which makes the following announcement:

The North Dakota Dairymen's and Buttermakers' association is sending out this notice to the boys and girls of the state notifying them that their 4th annual "Essay contest" will be held in connection with the 27th annual convention of the association. The subject chosen for this year's essay is an easy one to write on and should be of interest to the young people of the state. Our previous contests have been very successful and beneficial and it is expected even more boys and girls will enter the contest this year on account of interest in dairying throughout the state.

The North Dakota Dairymen's and Buttermakers' association also invites you and your parents and friends to attend its 27th annual convention which will be held at Jamestown on Feb. 8th, 9th and 10th. You will want to be a member of this association some day—why not meet with us this year and hear some of the best authorities on dairying.

### Rules of Contest.

Who may enter? Any boy or girl between the ages of 12 and 16 years inclusive, who is a resident of this state.

2. Subject of essay, "The Future of the Dairy Cow in North Dakota."

3. The length of the essay must not exceed 1,000 words.

4. The essay must be the result of your study of the subject. You may get your information from any book, bulletin, paper, or person, but you are to arrange this in your own words and submit it in your own writing.

5. Write your name, address and age at the end of your essay.

6. The essays must be mailed to O. A. Barton, Boys' and Girls' club leader, Agricultural College, North Dakota, to reach him not later than Feb. 6th. Essays received after that time cannot be considered for prizes.

7. The essays will be carefully read and graded by a competent committee headed by O. A. Barton.

8. Prizes: First prize, \$25; second prize \$15; third prize, \$10.

"All prize money will be paid out of a fund appropriated by the state legislature to the North Dakota Dairymen's and Buttermakers' association for carrying on its campaign for more profitable dairying."

The prize winning essay will be read at the Jamestown convention as a part of the regular program, and will become part of the permanent record of the association. It will also

be printed in the annual report of the association and published in the leading newspapers of the state, as well as in dairy and agricultural papers of the United States.

## LOCAL STUDENTS WIN HONORS IN COLLEGE DEBATE

Two Bismarck young people were winners in the principle debate contest of the year at Jamestown College, according to word received here. They are: George Scott Register, son of Geo. M. Register, and Alice Marie Dale, daughter of E. S. Dale. The object of the debate was to select two teams, one of men and one of women, to contest with similar teams of the State Agricultural College, Brookings, S. Dak. The question was: "Resolved that the Chinese Exclusion Act should be amended so as to include the Japanese." In the men's debate the affirmative won. In the women's the negative, but individual debaters were selected on their personal merits. The other winners were William S. Sharp and Reza Trodoff, both of Jamestown.

## THIEVES STEAL EVIDENCE IN WHISKEY CASE

Poplar, Mont., Jan. 24.—Thieves broke into the sheriff's office here last night and stole several cases of whiskey which has been confiscated from law violators. Loss of the liquor will hamper prosecution of a number of cases pending in the local courts.

## 25 PERCENT SLASH IN ESTIMATES

Washington, Jan. 24.—A reduction of 25 per cent in estimates for the conduct of the nation's foreign service was recommended today by an appropriations sub-committee in presenting to the house the diplomatic and consular bill for the next fiscal year. The state department's estimate of \$12,000,000 for this service was about 100 per cent more than the committee said that as the war had been ended more than two years it was inevitable that the fund should be cut materially below the amount available during the years of "special stress."

## GREAT BRITAIN REDUCES DEBT HUNDRED MILLION

Washington, Jan. 24.—Great Britain last year reduced its floating debt in the United States by nearly \$100,000,000, from \$150,914,255 to \$55,409,000, the department of commerce was informed today by Consul General Skinner at London. This is exclusive of long time bills by Great Britain from the American government and American bankers.

## RETAIL PRICES DOWN DECLARE DEALERS UNION

Retailers Organization Prepares Special Comparative Schedule of Prices of Companies

Chicago, Jan. 24.—Retail prices generally are not coming down but are already at that stage, according to the members of the Retailers' Commercial Union, which opened a week's convention today. As evidence they pointed to price lists issued by the association and showing manufacturers' prices with a year ago.

The retailers said that in view of these list chances of further reductions were slight.

Prices taken at random from this list include the following:

1920	1921
Fine dress gin hams, 32c a yard, 15%	
Women's serge suits, \$40, \$27.50	
Serge dresses, all wool, \$15, \$9.75	
High grade blend coffee, per pound, 44%	32%
Cheaper grade coffee, 19, 10%	
Navy beans per 100 lb. \$8.85, \$4.35	
Choice rolled oats, 30 lb. bags, \$4.25	
Women's silk stockings, 12 strand, pure thread \$21.00 per doz., \$12	

## THIEF RETURNS WAR RELICS TO MOTHER OF BOY

Chicago, Jan. 24.—Mementoes of a son killed in the aviation service overseas were returned today to Mrs. Lilian A. White by the thief who stole them last week while robbing her home. He slipped up to the home of Rev. R. L. Seamans, pastor of a church in Mrs. White's neighborhood, and handed them to the preacher's small daughter. It was supposed he had read newspaper articles telling how the articles were prized as mementoes.

## CRUDE OILS CUT 50 CENTS

Tulsa, Okla., Jan. 24.—The Prairie Oil and Gas company today announced a cut of 50 cents a barrel in the price of mid-continent crude oil. This affects all crudes in Oklahoma, Kansas and Texas. The cut is effective at once.

## SYRIANS GIVE REMEMBRANCE TO PRESIDENT WILSON

Washington, Jan. 24.—President Wilson received today a delegation of Syrians from Brazil who presented him a plaque expressing the gratitude the Syrians in Brazil for his efforts in behalf of small nations and for the help extended Syria during the war by the American nation.

## U. S. SUPREME COURT UPHOLDS SECURITY SEIZURES

Washington, Jan. 24.—The supreme court today upheld the authority of the alien property custodian to seize securities deposited in this country by the German insurance companies to protect American policy holders.

## ALARM CLOCK SAVES GIRLS FROM GAS FUMES

Minneapolis, Jan. 24.—An alarm clock saved the life of three young women this morning when Miss Rose Kolare, 23, was awakened by the bell and discovered a leaky gas heater which emitted gas fumes of sufficient strength to overcome her sister, Christine, 22, and a friend, Florence Anderson, 19.

## HOLD UP TRAIN. GET ONE DOLLAR

Chicago, Jan. 24.—The Chicago and Alton train from Kansas City was held up between Pleasant Hill and Louisiana early today, according to word received at the general office of the road here. The only proceeds of the robbery was \$1.00 contributed by the fireman to a man who climbed aboard the locomotive.

## MINORITY STOCKHOLDERS WIN THEIR FIGHT IN ALICE GOLD COMPANY

Washington, Jan. 24.—Minority stockholders of the Alice Gold and Silver company won their fight today in the supreme court to have annulled the sale of that company's property near Butte, Mont., to the Anaconda Copper Mining company.

## Coolidge to Take Southern Vacation

New York, Jan. 24.—Vice President-elect Calvin Coolidge will follow the example of President-elect Harding by taking a vacation in the south beginning next week.

"The Texan" is coming.

Phone 453 for the famous Wilton Screened Lump Lignite Coal. The coal that is all coal, no clinkers, no soot, no dirt. \$5.50 per ton delivered. Washburn Lignite Coal Co. Phone 453.

## BATTERY SERVICE

EXCLUSIVE ELECTRICAL SPECIALISTS Service and parts for Delco, Remy, Northeast and Auto Lite starters, Bosch, Eisemann and K-W Magnets, Exide and Minnesota batteries, and Klaxon horns. ELECTRIC SERVICE & TIRE CO. Bismarck, No. Dak.

## SPILLMAN TO SPEAK TONIGHT AT AUDITORIUM

Former U. S. Bureau Chief Will Deliver Address in Bismarck

The Farmers Institute of North Dakota, H. C. Puderbaugh, superintendent, is bringing W. J. Spillman of Philadelphia, to Bismarck tonight for an address at the auditorium on the general agricultural situation.

Mr. Spillman is at present connected with the editorial department of the Farm Journal published at Philadelphia. He came to that paper from the United States Department of Agriculture, where he was the chief of the bureau of farm markets.

His talk tonight, Mr. Puderbaugh has announced, will deal principally with the cost of production of farm products, credit for farm operations and control by the farmers of the distribution of their products.

G. W. Randlett, director of the North Dakota extension division, will probably appear with Mr. Spillman. Dr. J. E. Worst, state immigration commissioner, who was urged at the recent meeting of the Tri-State Grain Growers to succeed Dr. Ladd as president of the Agricultural College, will preside at the meeting, which will begin at 8 o'clock.

## MANDAN WINS VICTORY FROM FARGO'S TEAM

The Mandan high school basketball team added another scalp to its belt Saturday night by defeating Fargo high school at Fargo by a score of 26 to 16. Friday night Mandan beat Cassioton.

Fargo basketball enthusiasts highly praised the work of Hansen and

## COLDS of head or chest are more easily treated externally with VICKS VAPORUB Over 17 Million Jars Used Yearly

COME IN AND SEE OUR NEW SPRING SUITS. NEW GOODS ARRIVING DAILY.

## BISMARCK MAY RECEIVE GREAT 'TEDDY' STATUE

Dr. Henry Waldo Coe Will Present Replica to Some N. D. City

**EFFORTS MUST BE MADE Unless Local Organization Takes Matter Up, Statue May Be Lost**

Bismarck has an opportunity to get a replica of A. Phimister Proctor's equestrian statue of Theodore Roosevelt. Dr. H. W. Coe, of Portland, Ore., whose wife is a sister of Mrs. G. A. Killings of Bismarck, wants to give the replica to some North Dakota city. He has not determined to what city it shall be given.

Manhattan wants the statue. It is believed if some organization in Bismarck would take up the matter with Dr. Coe, Bismarck might obtain it. An article in the Portland Telegram telling of the offer, follows:

"To make sure that A. Phimister Proctor's equestrian statue of Roosevelt is not lost to posterity, Dr. Henry Waldo Coe will have a replica cast and presented to a North Dakota city. 'In case we have war with the Japs and they take possession of the Pacific coast, I do not want to run any chances of having them steal this work of art,' the doctor stated this morning.

"The Japs are known as the Prussians of the Orient and should they by any chance grab this coast, they might take all our works away from the same as the Germans plundered Belgium and Northern France.

"I think they would treat a statue of Roosevelt with respect, but they would take it to Japan with them if possible. I want to make sure that this great work of art will not be lost to Americans. That's why I'm going to have a replica set up in North Dakota—the Japs will never get there."

Dr. Coe will present the bronze statue by the greatest sculptor of the West to the city of Portland. The donor plans to have it unveiled during the 1921 Rose Festival, but this will be impossible. He now hopes to have the presentation ceremonies carried out October 27, Roosevelt's birthday.

**Family May Attend.** At that time, a speaker of national fame will make the principal address. The Portlander with private Dr. Henry Van Dyke or Major General Leonard Wood to deliver the talk. It is also hoped that Mrs. Roosevelt and Lieutenant Colonel Theodore Roosevelt will be present. All of the former president's children also will be invited.

The first cast of the statue is now in the sculptor's new studio at Palo Alto. Finishing touches are being added as the artists' viewpoint changes. The features of the rider will be worked upon last, at which time members of the late statesman's family and intimate friends will advise with Mr. Proctor.

**Use American Horse.** "As Roosevelt was a great lover of horses," said Mr. Proctor, "I want to spare neither time nor money in getting the mount perfect," declared Dr. Coe. "I will follow General Wood's request and have the horse an American one."

The statue will be thirteen feet high and the pedestal at least fifteen feet high. The completed work will cost \$40,000 or more.

"I want to say that my wife and three sons are as interested in this gift to the United States as I am," said the donor this morning. "They were great admirers of 'Teddy' and when I first mentioned this statue, they urged me to get busy right away. All by boys, like all the Roosevelt boys, volunteered for active service during the late war."

**Park Plans Changed.** Dr. Coe has given up the idea of placing the statue in a park at Manhattan. The park also was to be given to the city. But as he still would have some real estate holdings in that part of the town, the doctor did not want anyone to think that the statue was being put there to increase the value of his land.

Several other sites are being considered, but it will be some time before it is decided where the work of art will be placed. Nor has the doctor made up his mind whether Manhattan or Bismarck will be given the replica.

**Will Visit East.** The Portlander, who was an intimate friend of Theodore Roosevelt.

**SWEAR OFF TOBACCO**

"No-To-Pac" has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a cigarette, cigar, pipe, or for a chew, just place a harmless No-To-Pac tablet in your mouth instead, to help relieve that awful desire. Shortly the habit may be completely broken and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Pac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

## WHY SUFFER SO?

Why suffer from a bad back from sharp, shooting twinges, headache, dizziness and distressing urinary ills? Bismarck people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

G. L. Sheldon, 223 3d St., S. Bismarck, says: "The winter of 1912 I was in bad shape with kidney trouble. The rheumatic trouble was the worst symptom of my complaint and I suffered terribly. My kidneys didn't act right and the secretions contained a brick-dust sediment and were highly colored. I doctored for a time getting no relief and finally I started using Doan's Kidney Pills and in a week or two I was able to be on my feet again. I continued taking them and in three months I was cured. I have never had a return of the trouble since thanks to Doan's Kidney Pills."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sheldon had. Foster-McMillan Co., Mfrs., Buffalo, N. Y.

will leave for the East Friday. It is thought that he will visit North Dakota during this journey and decide just what city will receive the replica to insure never falling into the hands of the Nipponese.

## FIREMEN ARE ENDANGERED BY CITY AUTOISTS

**Narrowly Escaped Being Hit While Responding to Fire Alarm**

The most thoughtless persons in Bismarck have been discovered by Robert Jager, chief of the fire department.

They are persons who endanger the life of firemen for the little excitement of responding to a fire call.

"People will hear the alarm and start out to the fire in automobiles," he said today. "They will run along side, behind and in front of the most wagon, without the least consideration of the dangers that attend."

"When the boys on the wagon fear off to attach hose to a hydrant they do not have time to look around and dodge automobiles. The other day one of the firemen was almost hit by an automobile driving up alongside of the fire wagon when he jumped off to attach the hose."

Chief Jager reported the matter to the city council in its meeting last night. Unless the practice is stopped, arrest will follow.

## SHERIFFS ASK RULING TO AID IN FEE CHARGE

**State Association, Meeting Here, Decides to Ask for Opinion**

Sheriffs in North Dakota will ask Attorney General William Lemaire for a ruling as to proper fees. This action was decided upon at the state convention of the county sheriffs' association, meeting here yesterday afternoon and last night.

It was explained that county attorneys in various counties differ in their interpretation of the law as to proper fees, and to gain uniformity the sheriffs decided to ask the attorney general to interpret the law.

Officers were elected by the sheriffs as follows:

President—Ole Stofferud, McLean county.

Vice-President—Rollin Welch, Burleigh county.

Sec. Treas.—Jack Brady, Morton county.

About twenty sheriffs attended the meeting. They were entertained at a luncheon at the state penitentiary and inspected the prison.

It was stated that the question of whiskey running was not discussed, no sheriffs from the Canadian border counties being present. About 20 sheriffs attended.

## GOT \$272.73 WORD IN PRIZE COMPETITION

Louisville, Ky., Jan. 25.—Governor Edwin P. Morrow of Kentucky today presented the master prize of \$100 in the Everready flashlight \$100 prize contest to Col. C. W. Fowler, a well known citizen and prominent Republican of Louisville, at a luncheon attended by city and state officials, and four hundred members and guests of the Louisville advertising and rotary clubs.

More than 200,000 contestants, attracted by newspaper advertising, visited dealers' stores throughout the United States during June and July last to see a mystery picture, for the best answer to which 104 prizes, amounting to \$10,000, were offered by the American Ever Ready Works of Long Island City, N. Y.

Colonel Fowler, winner of the \$2,000 prize, took "dancer in the dark" as his keynote, and submitted a couplet reading:

"Dancer lurks where darkness lies, Till driven back by David's eyes. For these eleven words he received today \$272.73 per word."

**COW BEARS TRIPLETS**

Guelph, Ont., Jan. 24.—A Holstein cow belonging to N. Harrison gave birth to three calves. All are healthy and of uniform size.

## CHOICE BETWEEN TWO EVILS, SAYS JUDGE ROBINSON

**Can Try to Collect Excessive Tax Levies or Cut With Difficulty**

**TAXES ARE AGAIN SUBJECT Would Reduce Assessments Fifty Percent and Extend Payment Time**

Chief Justice Robinson issued the following open letter to the legislature today:

On the tax question the Jamestown Alert submits this inquiry:

"My dear Judge: 'We are frequently asked and would like to be informed on what theory or what ground could your recommendations to the legislature, compiled with, reduce the tax levy of 1919 and 1920 be made to work out in practice?'

The taxes for 1919 and 1920 have already been levied, much of the money collected and spent, and obligations incurred. How could a reduction of the 1919 tax levy, as you suggest, be put into effect now? Any further suggestions from you on this line would be appreciated."

The answer is this: The conditions with which we are confronted put us between the devil and deep sea. We have only a choice between the two evils. By trying to collect excessive tax levies Charles the 1st of England lost his head. By insisting on the penalties and the letter of his bond, made to secure three thousand crowns, Shylock lost it all, both principal and interest. He forfeited half of his estate and narrowly escaped with his life. In 1919, as we have shown, all the taxes were ruinously excessive, and for that reason the state taxes were reduced twenty-five per cent.

Then for the excessive taxes, with penalties and costs, nearly half the lands of the state were advertised for sale and "bid in" by the several counties. Thus the land titles were clouded and penalties and costs were marked up and not a cent was added to the assets of the state or any party. There was an inquiry, a great inquiry, without any benefit. On the "bid in" lands if they remain "bid in," you may depend on it the taxes of 1920 will not be paid. The advertising and bidding in does cloud titles, ruin credits, harass landowners, and perhaps drive them from the state; but it does not furnish a dollar to pay obligations.

Whereas, if the taxes of 1919 and 1920 be reduced and the penalties cancelled and the time of payment extended it will strengthen credits, give new hope and courage to put in the crops and to pay taxes.

Good businessmen no longer follow the example of Shylock. They know it is good policy to scale down, even just claims, against impetuous debtors and to give them hope and courage. The act or bill submitted for reducing the taxes of 1919 can do no harm to anyone. It gives a uniform reduction with a paper credit to those who have paid the excessive taxes. It cancels the unjust penalties and the clouding of titles. It is just and humanitarian.

**The 1920 Taxes.** Those are payable in two equal parts. The first half becomes delinquent on March 1st, and if not then paid there is added to it a penalty of one per cent.

Now it is well known that in 1920 the cost of labor was so high and the price of grain so low that even a fairly good crop was about the same as no crop. It did not pay the cost of production, nor the interest on debts and mortgages. Even those who are fairly well-to-do cannot borrow money. They cannot pay the excessive taxes of 1920. The best they can do is to live and work till they realize from another crop.

Now, as we have shown to a demonstration, in the lean years of 1913 and 1920, the assessments were five times that of any former year. The taxes were twice that of any former year. It was all dead wrong. Hence the only proper thing to do is to reduce the taxes.

For three or four weeks Henry Ford has been talking about the financial needs of his company with bankers in this and other cities. Bank loans to carry inventories, completed but unsold automobiles and Federal income and excess profits taxes have piled up a financial requirement possibly in excess of \$100,000,000. The bank loans are said to be \$30,000,000. The taxes are estimated at \$40,000,000, but these can be paid in four quarterly installments. The complete amount is \$30,000,000 in value. The contemplated financing is to retire bank loans, to meet taxes and to supply adequate working capital.

**ELECTION BILLS TO BE OFFERED IN LEGISLATURE**

(Continued from Page One)

each of the three larger units, the County, the State, and the Nation. In each of these three last named units issues frequently arise that are peculiar to each unit and can best be settled if the voters of each such unit are free to align themselves for or against an issue, regardless of their alignment on other issues in either of the other units.

**Free to Vote.** "Just as a County is free to vote on the question of issuing bonds for a Court House, so the citizens of a state should be in a position at all times to align themselves for or against all issues that involve state affairs, regardless of how they may be aligned on the question of such units as to align themselves for or against an issue, regardless of their alignment on other issues in either of the other units."

**Free to Vote.** "Just as a County is free to vote on the question of issuing bonds for a Court House, so the citizens of a state should be in a position at all times to align themselves for or against all issues that involve state affairs, regardless of how they may be aligned on the question of such units as to align themselves for or against an issue, regardless of their alignment on other issues in either of the other units."

**Free to Vote.** "Just as a County is free to vote on the question of issuing bonds for a Court House, so the citizens of a state should be in a position at all times to align themselves for or against all issues that involve state affairs, regardless of how they may be aligned on the question of such units as to align themselves for or against an issue, regardless of their alignment on other issues in either of the other units."

## Made a Hit With Him

"My wife has taken your medicine and has been wonderfully benefited. For four years she has had trouble with bleeding and could scarcely eat any food because of this condition. Doctor's medicines did not help her and an operation was advised. Her brother, who is a druggist, sent her a bottle of May's Wonderful Remedy and it helped her at once. I cannot praise your medicine enough. It is a simple, harmless preparation that removes the harmful mucus from the intestinal tract and plays the inflammation which causes practically all stomach ills and intestinal ailments, including appendicitis. One dose will convince or money refunded. All druggists."

Once the same fifty per cent and extend the time of payment until November, without adding any Shylock penalties."

Yours,  
JAMES E. ROBINSON.

## ONE MACHINE FOR EVERY FIVE PERSONS IN S. D.

**Records Show That a Large Number of Cars Are in Use.**

Pierre, S. D., Jan. 25.—According to the records in the office of the secretary of state, there were licensed in South Dakota during 1920, 112,583 pleasure automobiles, or one for every 5.5 persons, based on the federal census of last year which gave the state a population of 635,830.

Besides these pleasure car licenses, there were issued 777 sets of motor cycle plates, 1071 sets for automobile dealers and 7806 sets for trucks.

According to H. G. Freeman, clerk in charge of automobile licenses and registration, there were approximately 30,000 cars in the state operated without license altogether or on forged plates or on one plate borrowed from someone else, who in turn claimed that his plates had been lost and secured duplicates.

He bases his estimate on the fact that personal taxes were paid last year on 30,000 more cars than were licensed, one county alone paying on double the number licensed.

Sixty thousand sets of plates have been sent to county auditors throughout the state thus far this year.

## FORD WANTS MONEY FROM WALL STREET

**For Second Time Detroit Manufacturer Goes to New York**

New York, Jan. 25.—The Ford Motor company has come to Wall street for money for the second time in its history. It is negotiating for \$50,000,000 to \$75,000,000 at present. A group of New York bankers contemplate offering early next week either bonds or shares of the amount required. Public subscription will be invited. The negotiations have reached a point where the Liberty National Bank New York Trust Company and Corn Exchange Bank are connected with the new financing. An announcement is anticipated at the beginning of the week.

For three or four weeks Henry Ford has been talking about the financial needs of his company with bankers in this and other cities. Bank loans to carry inventories, completed but unsold automobiles and Federal income and excess profits taxes have piled up a financial requirement possibly in excess of \$100,000,000. The bank loans are said to be \$30,000,000. The taxes are estimated at \$40,000,000, but these can be paid in four quarterly installments. The complete amount is \$30,000,000 in value. The contemplated financing is to retire bank loans, to meet taxes and to supply adequate working capital.

**INSIDE STORY OF RUSSIA TO BE TOLD HERE**

Dr. Frey, Who Speaks at First Baptist Church, to Tell of Soviet

The real "inside story" of Bolshevism Russia will be told in Bismarck tonight.

The speaker is Dr. John Alexander Frey, noted as a minister, statesman and man of letters, who speaks at the Baptist church at 8 o'clock.

Dr. Frey gives the "inside story" of Russia because he has been through the changing tides of government. For years a Baptist minister, stationed at Riga, Latvia, Russia, he was exiled for two years in Siberia and narrowly escaped death at the hands of the Bolsheviks.

His subject is "Europe and Russia as They are Today."

Dr. Frey only recently returned from Russia, and in his present lecture tour he has appeared for audiences in many cities, where thousands have eagerly sought to hear his explanation of the Russian situation and his experiences. Many, too, have been deeply interested in the talk upon conditions in Europe, which he studied.

Dr. Frey is said to be a polished orator as well as a man of affairs. An invitation is extended to the public in general, and especially to members of the legislature, to be present.

# JAP ATROCITIES IN KOREA TOLD BY MISSIONARY

Government Sends Commission to Investigate Conduct of Troops - Villages Destroyed

## MANY NATIVES KILLED

Mass of Data Has Been Collected to Submit to Government Authorities

Tokio, Jan. 25.—Charges that the Japanese troops sent into the Chinese district of Chientao, a Manchurian community just over the Korean border, indiscriminately shot hundreds of the villagers without semblance of trial, burned villages, schools, churches, and other public buildings by Canadian missionaries stationed in Manchuria and Korea.

Replying to these charges, Lieutenant Colonel Hata, of the Japanese Imperial staff, at the Japanese War Office stated that the Japanese soldiers had burned churches and schools only after evidence had been obtained that they were being used as centers of intrigue by Korean malcontents. He said the villages destroyed were those in which the inhabitants had been in league with the outlaws. He declared that the villagers were executed only after inquiry by the military and civilian authorities.

The Japanese government has sent to Chientao a commission to investigate the conduct of the troops. This body is headed by Colonel Mizuma chi, formerly military attaché at Washington.

One of the missionaries, Dr. S. H. Martin, of Newfoundland, a physician attached to the Canadian Presbyterian Mission at Yungjung, who visited the village of Norabawie, on October 31, two days after the Japanese went through that district, states:

"The facts recorded below apply to the whole district of Kando or Chientao in the southern part of the provinces of Kirin, China.

"Japan, under the strongest protest from China has sent over 15,000 men into this part of China with the seeming intention of wiping out of existence, if possible, the whole Christian community, especially all young men.

"Villages after village is daily being methodically burned and the young men shot, so that at present we have a ring of villages surrounding this city that have suffered from fire or wholesale murder or both. The facts below are absolutely accurate:

"At daybreak a complete dordon of Japanese infantry surrounded the main Christian village of Norabawie and, starting from the top of the valley, set fire to the immense stacks of unthreshed millet, barley and straw, and then ordered the occupants of the house outside. In each case as the other or others stepped forth he was shot on sight and as he fell on his face, perhaps only half dead, great piles of burning straw were thrown on top of him.

"Blood Murks. "I was shown the blood marks on the ground caused by the bayonet thrusts inflicted on the men as they strove to rise from the flames, in

# FAMED BOUDOIR BEAUTIES

Of all the revues produced thus far since the creations of the French music halls were first introduced in this country, the Greenwich Village Follies, the gay and artistic creation from the inner shrine of New York's much-talked-about quarter, which opens the Auditorium January 31, is quite the most novel, the most fantastic and the most unconventional. The "Follies" violated all theatrical precedent and tradition in the locale of its premiere, in the choice of its players, in its scenic investiture in its lighting and staging methods with the result

that it has been acclaimed by a critical press and a sophisticated public as the most noteworthy contribution to the modern girl-and-music stage. The "Follies" is indigenous to Greenwich Village, that pulsating, artistic, ambitious, it is a blaze with the impressionistic atmosphere of that bizarre community. It is a flesh-and-blood manifestation of the philosophy of the fanciful and intellectual artists who inhabit the quarter Latin of the Western hemisphere. It mirrors their notions and their emotions, their style and their antics.

Never does it resort to the rubber stamp and staid methods which identify its contemporaries. The conventional chorus girl is missing. In her place stands the artistic model, a tall, stately creature with the drawing room manner and none of the sophisticated air of the much rehearsed lady of the ensemble. Not one of the young women in the "Follies" has ever appeared upon the professional stage prior to the premiere of the revue in the drab little Greenwich Village Theatre in lower Manhattan.

sumes that a man is earning money," Tudor replied. "If he has no means of earning it, and does not earn it, the law cannot compel a man to pass on an inheritance to his family."

"By way of illustration, if Mrs. Garland should demand support it might be that complications would arise and Garland would either have to earn money or get it somehow. However, we have not gone into that because Mrs. Garland has not raised the question."

**Garland's Resolution**  
Garland says he is more than ever determined to reject the million.

"Nothing has altered my view that money and what people will do for money is the root of all present day evils," he says. "I have still not worked out a plan of action—a code of life. My whole problem just now is to determine how best to present a practical plan of living, with money eliminated."

**HEARING JANUARY 28**  
A hearing will be held January 28 on the application of Governor Kendall of Iowa, for the extradition of Pat Connolly, who is wanted in Cerro Gordo county, Iowa, for alleged obtaining of money under false pretenses. His extradition is being opposed on the contention that his arrest is wished merely for the payment of a retail debt.

**WHAT'S THE ANSWER?**  
Chicago.—Baby buggies are 20 per cent cheaper. They have pneumatic tires, windshields, and side curtains. But there's light demand for 'em.

**MAKING 'EM HAPPY**  
Boston.—A bill is pending in the Legislature exempting Massachusetts women from telling their ages at election. They would just say they are over 21 and let it go at that.

In answering inquiries at the Japanese War Office, Lieutenant Colonel Hata, told the Associated Press correspondent that the number of Japanese troops employed in the Chientao affair was 5,000. Not 15,000. Villages had been burned, he said, but only in cases where the majority of inhabitants were known to be in league with the outlaws.

Referring to the charge that an organized attempt was made to wipe out the whole Christian community, Colonel Hata said that it was possible that a majority of those who had been executed were Christians but they were not punished for their religion but for banditry and rebellion. No charge was made against the missionaries.

Colonel Hata, while admitting that harsh measures had been adopted, said that conditions had existed in that district for a long time owing to the unchecked activities of Chinese bandits, Korean outlaws and Russian Bolsheviks. He said he was confident that the Japanese soldiers had not been guilty of the barbarities with which they had been charged.

**GIRL BEGINS WORK AT \$1200 YEARLY**  
Even if she did have to come all the way from Iowa, if paid Rebecca Weld to get a good commercial education at Dakota Business College, Fargo, N. D. On completing her course, she was sent to the Fargo Automobile School at \$100 a month to start.

Unskilled workers are badly handicapped today. Trained people are getting as good jobs, pay and advancement as ever. D. B. C. graduates are preferred.

"Follow the Successful" Write F. L. Watkins, Pres., 806 Front St., Fargo, N. D., for information.

# GARLAND MILLIONS PILE UP INTEREST

(N. E. A. Staff Special)  
New York, Jan. 25.—The Garland million is increasing at compound interest while Charles Garland still declines to accept it and seeks a way to live without money.

The million is in the capable custody of Henry D. Tudor, the Garland trustee.

Garland continues to live with his wife and child on his mother's farm at Buzzards Bay, Mass.

"We are holding the money in abeyance," Tudor says, "hoping something will alter Mr. Garland's views and make him accept it. But he is just as firm in his refusal as he was last winter when he became of age."

**Legal Question**  
Does the law, compelling a man to support his wife and family, apply in a case like that of Mr. Garland, who has stated he is living on his mother's bounty? Tudor was asked, "I think this phase of the law pre-

# SOBER EAGLE; DRUNK LION

General Booth Says Wet England Can't Compete With Dry America

BY MILTON BRONNER

London, Jan. 25.—"How did you find America?"

"Better, happier, healthier, richer, more productive—since prohibition."

General W. Bramwell Booth, head of the Salvation Army, answered like man whose mind already is made up.

Interviewed him on his return from a tour of northern and eastern states. It was his first visit to America since 1913.

"How much of a difference did you find between a wet America and a dry America?"

"Everywhere Salvation Army officers told me prohibition had brought about an entirely different set of conditions. We used to do a great deal of work in reclaiming the down-and-outs who were victims of liquor. That is almost a thing of the past."

**Unemployment.**  
"What is America's greatest present problem?"

"Unemployment. Despite prohibition there is still a cold blast of poverty."

"Do you think as so often is said in England, that prohibition has contributed to unemployment?"

"No. The encouraging thing about the prohibition movement is the sensible way in which the big American distillers have accepted it and converted their plants to benedictine. One makes furniture polish, less liquor, more furniture, more heat, in polish, you see."

**Drink-Drugged Tip.**  
"Do you think England will follow America in adopting prohibition?"

"It will take up 20 years. The drink-drugged lion cannot hope for long to compete with a sober eagle."

"What was the strongest impression you carried home from America?"

"I wouldn't say this was the strongest—but I came away with a great grief in my heart because child life is still being exploited in some of your manufacturing cities, notably Chicago."

"What remedy would you suggest?"

"Your state and federal laws do not

# SUFFERED SEVEN LONG YEARS

Finally Relieved by taking Lydia E. Pinkham's Vegetable Compound

Ravenwood, W. Va.—"For seven long years I suffered from a female trouble and inflammation so that I was not able to do my housework. I consulted several doctors but none seemed to give me relief. I read in a paper about Lydia E. Pinkham's Vegetable Compound so I decided to try it, and before the first bottle was gone I found great relief. I continued using it until I had taken eight bottles. Now I am very well and can do my own housework. I can gladly recommend Lydia E. Pinkham's medicine to suffering women."—Mrs. BERTHA LIERING, R. F. D., Ravenwood, W. Va.

The ordinary day of most housewives is a ceaseless treadmill of washing, cooking, cleaning, mending, sweeping, dusting and caring for little ones. How much harder the tasks when some derangement of the system causes headaches, backaches, beating-down pains and nervousness. Every such woman should profit by Mrs. Liering's experience. Remember this, for over forty years Lydia E. Pinkham's Vegetable Compound has been restoring health.

**HEALTH MAKES MEN OF ACTION**  
Men who make the best records in sport or work are men of steady nerves, well knit muscles and clear brains—and to have these any man must have the health which is the source of vigor, action and achievement.

**LYKO**  
The Great General Tonic

has helped many a tired man to feel strong and well again. It is recommended as a laxative tonic especially adapted to keep the stomach and bowels in good condition, to give a keen edge to the appetite, to aid in regulating the kidneys and to restore strength to the body by keeping all the functions working naturally.

**A Pure Remedy**  
Lyko is made from a tested formula and contains the purest drugs recognized therapeutic value. It is compounded by expert chemists and is always tested for purity and correct proportions before leaving the laboratory.

**Ask Your Druggist**  
Lyko comes in original packages only. You can obtain it at any reliable druggist's. Get a bottle today and see how it will help you to feel your old time strength and vim.

Sole Manufacturers **LYKO MEDICINE COMPANY** NEW YORK KANSAS CITY

# Beauty Secret

KEEP the system clean. Eliminate the poisons. If nature will not do it for you, help nature with a natural medicine like Dr. Caldwell's Syrup Pepsin. Take a teaspoonful for a few nights and watch the results. There will be a feeling of lightness, the eyes will be bright and sparkling, the lips red, the cheeks pink.

Dr. Caldwell's Syrup Pepsin is the recognized, standard remedy for constipation, and it is compensation that gives women headaches, dullness, loss of appetite and sleep, bad breath and bad complexion. Dr. Caldwell's Syrup Pepsin will relieve you over night, and do it gently but thoroughly. It is just a combination of simple laxative herbs with pepsin, so safe that it is given to infants. A sixty-cent bottle will last for months, and last year eight million bottles were bought at drug stores—in itself a guarantee of merit.

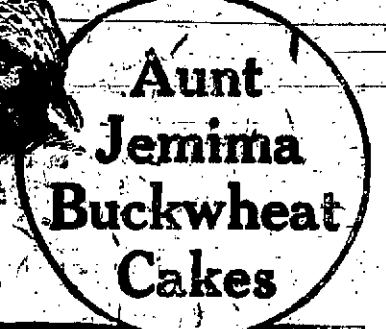

**TRY IT FREE**  
Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 513 Washington St., Monticello, Ill. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

One of these was for \$13,000, paid to Paul D. Cravath, attorney for the Bethlehem company, and was charged to overhead, he said.

# COLUMBIA PHONOGRAPHS

COLUMBIA RECORDS. ON EASY TERMS IF DESIRED COWAN'S DRUG STORE

## NORTH DAKOTA WOMAN HONORED

State Superintendent Minnie Jean Nielson has just been appointed to national office in the Federation of Women's Clubs. According to a wire from the national president of women's clubs, Mrs. Thomas G. Winter of Minneapolis, Miss Nielson has been made chairman of the educational division of the general federation. The vacancy on the national board has been caused by the resignation of Mrs. Mary C. Bradford, formerly state superintendent of public instruction of Colorado. Mrs. Bradford has been compelled to resign from the board because of illness. Miss Nielson sent her formal acceptance yesterday.

The office of chairman of the educational division of the General Federation of Women's Clubs has in its jurisdiction all departments of work in education, rural schools, kindergarten, library extension, recreation, and home economics, with sub-chairmen of each department in all states of the Union.

This is the first time that North Dakota has been given a chairmanship of a division in the general federation work, though there have been several offices held by club women of the state at different times. Before the recent reorganization of the departments of work there was always a general federation secretary, there

have been directors on the general board for the state, etc. Miss Nielson is now chairman of the department of education for the state. Her federation work and has recently completed her term as national director.

### DELIGHTFUL PARTY.

The crowning special event of the series planned for Miss Lucas was the party given by Mrs. Frank Grambs and Mrs. C. W. FeGray at the Grambs home on Fourth street last night. Twenty young men and women, friends of the bride and groom, were bidden and the event proved to be the high tide of charming affairs honoring the popular young couple.

The spacious home was turned into a bower of American Beauty roses and carnations. Above the door hung a pink bell with pink streamers for the young men and white streamers for the young women. Each guest, on pulling a streamer learned, from a card containing a name, who would be partner for luncheon. That momentous question being settled entirely to the delight of everybody, one of the young women appeared as a "chef," weighed down by a mammoth wedding cake—two-story—and topped by the pinkest of "kewpie" brides in full bridal array.

The bride and groom, disclosing privileged to cut the cake, disclosing a filling of kitchen utensils, varied and wonderful, suited to the needs of both bride and groom, and joyfully bidden there by the young guests. Mrs. McGraw is charged with being the genius of the cake, and its unbounded success was most apparent.

At 11 o'clock a five-course buffet luncheon was served, the mother of the bride, Mrs. W. A. Lucas, assisting in serving while Mrs. Hedden, the groom's mother, poured coffee.

Following the luncheon all were imbued with the spirit of helping a good thing along, so a book, designed in heart shape, served as a record book of each guest's most said advice on "How to be happy though married," and the book is said to have outdone Solomon in the wisdom there set down. Thus closed one of the most elaborate parties of the season, according to report of the guests, and one that must remain a beautiful memory to the young couple on the eve of their marriage.

### MONDAY CLUB MET.

The Monday club held their regular meeting yesterday at the home of Mrs. F. A. Knowles on Avenue A. Mrs. Roan gave a paper on The Natural Characteristics of Mexico; Mrs. Goddard had as her topic Commercial Conditions and Industries; Mrs. Ederstad discussed education, and the church in Mexico, and Mrs. Whitney read a paper on Spanish-American Art and Architecture.

Following the program, Miss Bertha Palmer, primary specialist in the state department of education, was invited to give a talk on pictures, illustrated by choice prints, sent on by the Board of Art Galleries of Minneapolis for illustration in selection of pictures for civic buildings, such as schools, etc. Miss Palmer's talk on pictures is attracting much favorable attention and many calls are sent in for her appearance on programs.

### VERMILYA FAMILY LEAVE.

Rev. Charles E. Vermilya, Mrs. Vermilya and family leave Bismarck on tonight's train for San Francisco where they will make their home. Mr. Vermilya having been made an important officer in the administration department of the Methodist church, which will include in jurisdiction many states, one of which is North Dakota. This is a marked promotion and the many friends of the family wish them great success and happiness in their new home.

### RETURN WITH HUSBANDS.

The small group of wives of members of the legislature who are in Bismarck for the session have been pleasantly augmented by the coming of Mrs. John Halcrow, wife of Representative John Halcrow of Bowmont, and Mrs. C. W. Carey of Lidzewood who has accompanied her husband, Senator Carey of Richland county, upon his return from recess. They are registered at the Grand Pacific.

### CLUBS OF THE WEEK

The Monday club met at the home of Mrs. F. A. Knowles Monday evening. The club has a social session in their club room in the Hinckley block on Tuesday evening. The Thursday Musical will have their regular meeting on Thursday afternoon in the community room of the City library.

### BRIDE AND GROOM HERE.

Mr. Jerome Maddock and Mrs. Maddock are at the McKenzie, visiting Representative Maddock and have just returned from the western part of the state. The young couple were married in Grand Forks on Tuesday last. The bride was Miss Clara Dubuque, daughter of Mr. and Mrs. A. Dubuque of Grand Forks. Mr. and Mrs. Maddock will make their home at Northwood.

### MONDAY CLUB ENTERTAINS.

The anniversary of the organization of the Monday club was celebrated by a bridge supper, given by the mem-

## ALL-OVER LACE LATEST THING FOR LINGERIE

BY CORA MOORE.  
New York's Fashion Authority.

These are the days of the lingerie sales.

New are the slips, or combination brassieres and petticoats of all-over lace, like the one the artist has sketched. It is of pretty, strong shadow lace, threaded at the high waistline with a satin ribbon.

The chemise and chemise, also illustrated, are of crepe de chine with a bit of lace inset and a few ruffles, flowers added.

Ribbon work with long stitch silk embroidery, and lace in which a portion of the design is overworked with colored silks, are among the new schemes calculated to make dainty "undies" daintier.

Perhaps of all silk materials the Japanese and crepe de chine are most desirable. There is a distinct reaction, however, toward fine cotton and linen fabrics again.

bers in Elks' hall, when the club members had their husbands as guests. A course supper was served at 7 o'clock, followed by bridge. The high score in the play went to Dr. Towne and Dr. Fannie Dunn Quinn.

The club was organized in 1902 and each anniversary has been celebrated since organization.

LADY FORESTERS' DANCE.  
The Women's Lodge of Catholic Order of Foresters will entertain at a card party and dance in the K. P. hall tonight, to which the public is invited. The lodge is composed chiefly of young women who finance their own order and the benefit is one of the girls given by the girls during the season.

There will be a special meeting of Tancered Commandery, No. 1, Knights Templar, in Masonic temple Wednesday evening. Work in the Red Cross degree.

P. G. Harrington, adjutant of the Lloyd Spetz post, believes that the post will have a paid-up membership this year of 500. The membership at present exceeds that of last year on March 1.

Visitor Here  
J. D. Eaton, of Williston, is here visiting his daughter, Mrs. F. J. Gray.

On Vacation  
Mr. and Mrs. Dan McGottigan, of 247 Sixth street, has gone to Washington and Oregon to spend a several weeks vacation.

Episcopal Guild  
St. George's Episcopal Guild will give a home-cooked supper Thursday evening in the American Legion hall, from 6 to 8 o'clock. Everybody is welcome.

German Lutheran Aid  
The ladies of the German Lutheran Aid will meet at the home of Mrs. Herman Ode, 410 Fifteenth street, on Thursday afternoon. All members are urged to attend.

Examinations  
Examination for professional certificates, given by the state department of education, began this morning and will continue until Thursday evening. Seven candidates have presented themselves for the tests.

Saturday Night Haul  
Two men were arrested on charges of being drunk—one on a charge of disorderly conduct and a fourth was picked up on a vagrancy charge by the police Saturday night. They were to have hearings late today.

Federal Court Here  
Judge Woodrough, of United States district court, who is in California, will stop in Bismarck on his return trip to hold federal court on February 26, according to information received here. Judge Woodrough will hold federal court in Fargo in March.

Guild Supper Thursday  
One of the groups of workers in the Episcopal Guild will give a public supper in the American Legion hall on Thursday evening, serving from six to eight o'clock. The supper will be an excellent one, and the ladies hope to find a good company at their board. One dollar a plate is the price of the supper, with the best of everything for the money.

Returns from Visit  
Miss Elma Andrist returned to her home after a vacation spent at the Charles Schebler farm. A party was given in her honor by Misses Louise and Amelia Schebler, where a number of friends from Bismarck were present. She also visited with Miss Lena Gable at the John Gable farm. Forty young people of Bismarck and McKenzie were present at a party given for her at the Gable home.

WIFE OF AUDITOR HERE.  
Mrs. O. W. Webster, wife of the auditor of the International Harvester company, is with her husband during his two months' stay in Bismarck.

Pittsburg.—A man who doesn't know who he is, a victim of amnesia, is in General Hospital. Relatives of more than 200 men who have disappeared have tried to identify him.

"The Texan" is coming.

## AT THE MOVIES

### ELTINGE

A case of exceptional worth supports Edna Bennett in her latest Paramount starring vehicle, "Her Husband's Friend," which is to be the feature attraction at the Eltinge theatre tomorrow.

Tom Chatterton, who plays the part of "Princeton Hadley," the "friend," was with Thomas H. Ince in the old days of Inceville. Roland Lee, has displayed ability in a wide diversity of parts and shortly is to direct a picture of his own, "Mae Busch, Allen Manning, George Pierce, and Herbert Dunbar are all players who have made names for themselves in Thomas H. Ince productions.

"Her Husband's Friend" was directed by Fred Niblo, under the supervision of Thomas H. Ince. The story

was adapted to the screen from Marjorie Denton Cooke's famous novel "The Incubus." Miss Bennett's role is that of a young wife who, when she becomes a widow, is unaware that her husband's best friend had promised to care for her. Neither have met and while the young widow believes that the money she receives regularly comes from her husband's estate, the friend soon begins to squirm under the burden imposed on him. They meet in queer circumstances and presto! Cupid gets busy. How they travel the road of love makes a highly entertaining story.

IT'S GOOD FOR CHILDREN.  
Mrs. C. E. Schwab, 1007 14th St., Canton, Ohio, writes: "We use Foley's Honey and Tar for coughs and find it one of the best remedies on the market, especially good for children's coughs, as it does not contain any drug that is harmful." Serious sick-

ness often follows lingering colds. Hard coughing weakens a child's body and disturbs strength-giving sleep, and the poisons weaken the system so that disease cannot be warded off. Take Foley's in time.

THE STATE'S OLDEST NEWSPAPER

(Established 1873)

## INTEREST IN COOPERATION

There is a wonderful field in this state for the development of the co-operative idea thoroughly divorced from politics. In true co-operative marketing lies the real and lasting solution of the economic problems of the North Dakota farmer. Political remedies are makeshifts at best.

During the last week some important meetings have been held under the auspices of the various co-operative societies and out of them have come constructive ideas and plans for a widening of the system of marketing that has proved so successful among the citrus growers of California, the wool producers and also the cotton and tobacco planters.

North Dakota can apply the same principles to the marketing of her chief products. It is merely a question of getting the plan on a sound workable basis and of excluding political intrigue.

The Farm Bureau idea is being developed intensely and it may be the organization around which all others in the field may group, but it is too early to say just what will be the ultimate agency to direct the co-operative effort of North Dakota. It must be apparent to all businessmen connected with the movement that there should be one strong unit, rather than a great number and that success lies chiefly in unity of action and purpose.

All power to the promoters of real co-operative effort to place this marketing of the products of North Dakota on a sounder basis and to secure for every citizen a better market.

The smoking stand man gave pa for Christmas has become a sewing table.

## "YOUR MOVE"

The American Checkers association has just held its annual meeting at Cedar Point, Ohio, giving renewed impetus to youthful jocosmiths who delight in poking fun at one of the most ancient of man's games.

Sixteen hundred years before the birth of Christ, Egyptians were playing checkers. They didn't call it that, nor did the British, from whom we got the game. Over there they still speak of it as "Drafts," but it is checkers to every American who moves the rounded disks from square to square, that is, until his opponent removes them from the board.

The most remarkable thing about checkers is that the death of nothing else has been predicted more frequently, or by as many persons. Centuries ago the young folks were saying it was fine sport for old people, but doubtless it would die out when grandpa and his gang passed away. It didn't, possibly because there always have been elderly people, who, naturally enough, would rather move upon a checkerboard than on a baseball diamond or a tennis court.

Harding has ordered two dress suits. Our shirt-sleeve diplomats will know where to borrow an extra outfit when they're invited out.

## ANNABEL LEE AND ANNABEL HARR.

"A maiden there lived whom you may know

By the name of Annabel Lee;

And this maiden she lived with no other thought

Than to love and be loved by me."

That may have been all right "many and many a year ago, in the kingdom by the sea," but in Mill Point, Sullivan county, Tenn., these days, Annabels have other things to engage their time and attention. For instance, there is the canning to be done, and the community fair!

The story just comes from the U. S. Department of Agriculture, where, by the way, Annabel Harr of Tennessee is more highly praised than Annabel Lee of the kingdom by the sea.

Last summer, when the men folks of Mill Point threw up their hands in utter defeat and said there was no chance of ever pulling off that community fair Sullivan county people had talked so much about, for so long, Annabel Harr came to bat.

Annabel, it may be explained, is president of the Four H Canning club. Also, she's 15 and one of the prettiest and smartest girls in Mill Point.

"Well, you men make an awful fuss about this community fair business," Annabel is quoted as saying. "We girls had better attend to the matter."

They did! The Four H Canning club attended to the matter all right, all right! All they did was to pull off the most successful community fair in the state of Tennessee. All Annabel

did was to see everybody in the county and beg them to attend and bring their prize products for exhibition. But that was enough to cause the big department of agriculture to write a longer piece about Annabel Harr than Poe did about Annabel Lee, who only lived to love and be loved.

Silkworms when fed certain leaves produce colored silk. We suspect our milkman of feeding his cows indigo.

## THE LEAGUE'S BIRTHDAY.

Was the League of Nations born on Jan. 10, 1920, or six days later? That is a question destined to produce discussion for many years to come. Not that it matters much which way it finally is decided, if it ever is, for the main thing is that the league was born, and that it was born alive. The date is inconsequential.

Edwin L. James, American newspaper man in Paris at the time, wrote on Jan. 16, 1920: "The League of Nations is a reality. It began to function this morning at 10:30 o'clock, when the executive council opened its first meeting."

But that is much like saying a child was born the day it begins to crawl.

"On Jan. 10, 1920, the League of Nations descended from the realm of fancy and became a fact," writes Arthur Sweetser, of the American Peace Commission, in his new book, "The League of Nations at Work."

"On that day of Jan. 10, 1920," Sweetser continues, "the ratifications of the Treaty of Versailles were exchanged at Paris; the treaty became effective, and the League of Nations became part of the public law of the world."

Brooklyn woman asks \$1,000,000 from her rival because she stole her husband. Whoever heard of a husband worth \$1,000,000?

## LOOKING BACKWARD.

To look far backward one needs look underground, at the ruins of buried cities, at fossilized remains of bones that once were living things, at weapons and implements they used. Thus science tells us what never has been written on history's pages; who lived before the dawn of civilization, and how.

Recovery of these lost chapters in the career of man is an imminent possibility and an American possibility, Dr. J. H. Breasted, professor of Egyptology and Oriental history, reports.

"The collapse of the Ottoman empire has opened the birth-lands of civilization to unrestricted investigation," Dr. Breasted said. "It is evident that there lies before us an opportunity unprecedented in the history of humanistic research."

"The great centers of human life in the ancient world, the mighty cities and capitals of Babylonia, Assyria, Persia, Palestine, Syria, Asia Minor and Egypt, the region where the earliest civilized societies arose out of savagery and barbarism to bring civilization to barbarian Europe—all these treasures of human records which are rapidly perishing in the whole region about the eastern end of the Mediterranean lie there silently awaiting the spade of the excavator."

To the non-scientific mind this looking backward, the digging into ruins of past ages, means little; looking ahead is far more desirable. The scientific mind, though, looks backward and acquires knowledge, the only true lens through which one may look ahead and understand what one sees.

## PROTECTING SCENERY.

Massachusetts has shown the way for states that develop public spirit enough to protect their scenic spots from desecration by billboards, as they all ought to do.

Under a recent law, made possible by a constitutional amendment, the state department of public works has issued a set of rules governing this business which have the force of law.

Under these rules, nobody can engage in outdoor advertising without first taking out a license.

No billboards or signs can be located within the bounds of any highway, or within three hundred feet of any park, parkway, playground, state recreation or public building.

No billboard or sign can be placed on any rock or tree, or upon any fence or pole bordering any public highway.

The state reserves the right to pass on all matter displayed upon outdoor signs, and to require the removal of any objectionable matter.

And this additional rule is the heart of the whole plan: "No permits shall be granted for the location and maintenance of signs near certain highways in territory which, in the opinion of the division of highways, is of unusual scenic beauty. Such places will be designated by the division from time to time."

All signs now located in violation of these rules must be removed by July 1.

In short, Massachusetts will no longer permit the impudence of flaring billboards blighting its scenery and affronting the eye of the tourist along the state's highways.

This is an example which Minnesota may well follow in the development of its new system of state roads.—Duluth Herald.

Sh-h-h!

## ADVENTURES OF THE TWINS

By Oliver Roberts Barton.

"Another friend?" Nancy and Nick jumped quickly onto the lobster's back and in a trice they were over the wall that str-

"Such children! Such children!" said a voice suddenly from a large whack shell. "Such stupidity!"

Founded the palace of the wicked Jinn At the bottom of the sea when he had set them down gently on the white sand, which shell did you hide, your box of charms under when the Jinn brought you here?" Nancy looked around bewildered for there were thousands of huge shells scattered in every direction, and they all looked exactly alike. "I don't know," she said in a puzzled voice. "Nickie, can you remember?"

But the harder Nickie thought the more confused he became. He shook his head. "No," said he. "I don't know either. What shall we do with our Magic Green Shoes lost, and now the Golden Key, our Language Charm and the Map. We shall never, never, get to the South Pole."

## PEOPLE'S FORUM

Sees More of Immorality.

Editor Tribune:

One day last week an article appeared in a Fargo paper from a correspondent in Langdon revealing a sad state of affairs as pertaining to the morals of the latest community and stating that three girls had been sent to the Crittenton Home at Fargo very recently and especially in the case of one of these girls and she but sixteen years old. A shocking number of boys and men had been involved. The superintendent of the Crittenton Home by invitation came to Langdon and a community meeting was held the local ministers co-operating heartily and addresses on the necessity of social purity were given.

The writer has been contemplating for some time asking for space in the Tribune (and with the hope other papers would copy for the purpose of calling attention to the public of the necessity of giving more heed to this vital question. As superintendent of the State Humane Society, his attention in recent months the time and again has been brought to the condition of morals in communities over the state, until conviction has forced him to say that he believes a wave of immorality is passing over the state of North Dakota. Of course this is said of other states at this time and is attributed to the after effects of the Great War, including tight times financially.

When noble-minded women make the statement of their own town or community that the common comment is that not a single girl in their community is vicious to say the least the situation is serious. We do not believe that such is the case generally. It may be true in a few isolated cases, but we are forced to believe

that the state of morals is downward rather than upward at this time.

The Humane Society has been co-operating with some county superintendents of schools of late in the special effort to correct delinquencies morally on the part of some youth including school teachers and delinquencies on the part of parents where the youth are quite wholly neglected. Supt. J. G. Mcintosh county in the respect of delinquencies among parents is doing a noble work in a difficult territory. We spent some time with him going over his county recently. In Morton county Supt. Jensen, also with the aid of the Humane Society, is endeavoring to put a stop to certain evils to children.

A certain county where the superintendent requested our help, state that he is losing five per cent of his teaching staff annually on account of lack of morals. Surely all this warrants the statement that perhaps the time is ripe (we believe it is) for the different organizations in the state to

## LEAGUE MUST BE REORGANIZED TO AVERT 'REBELLION,' CLAIM

A new and interesting report of the recent Nonpartisan league state convention is given in the Mandan News, Nonpartisan weekly newspaper. The paper seems to regard a reorganization of the league as of paramount importance, but asserts that the reorganization carries "no ill-feeling toward the league."

Unless the league is made absolutely democratic, "rebellion" will break out, the paper says. Its remarks on the convention follow:

"The agitation for a reorganization of the league along democratic lines has borne fruit in the selection of delegates to the state convention, and nearly every delegate carried a resolution in his pocket providing for some form of organization that would give the county absolute control of county affairs and provide for 'local' along the lines of the trade union."

get together co-operatively and put over a state wide campaign simultaneously on clean moral living. The churches, the Women's Federated clubs, the State Conference of Social Work, the Rotary clubs, the County Superintendents of Schools as a force, the State Humane Society—all these and others united and in a sane way, should prove a most efficient force for moral righteousness. Paul's great text: "The body exists not for immorality, but for the Lord" would readily make a good watchword in such a campaign.

Sincerely yours,  
GEO. B. NEWCOMB,  
Supt. State Humane and Society for the Friendless.

## POETS' CORNER

MY OWN STATE—NORTH DAKOTA.

By Thomas T. Johnston.

Land of the crocus and the wild red rose.

Of the wide far plain and the vibrant breeze,

Where a radiant sky looks down and glows

On the spirit's trembling ecstasies.

Where Springtime heralds the yearning year

At the meadow-lark's clarion glad behest.

How it sings at dawn its song sincere.

Or when Sol paints passionately the west.

Your prairies summer dream along

Toward the harvest's wealth of rolling wheat.

Then the reapers drive with their harvest song.

So buoyant, and merry, and high, and sweet.

At last your plains are swept with storm.

North the sombre clouds—and the wild winds blow.

But Dakota friendship is true and warm.

And joy never dies in this land of snow.

Amherst, Mass.

## JUST JOKING

Courtin' a Widow.

Don't imagine that you can avoid a courting stunt by paying attention to a widow. She'll expect as much fuss and "ootsy-wootsy" about a 10-year-old maiden.—Cincinnati Enquirer.

Taking After Mother.

Bert just came home from college and he had a "shadow" on his upper lip. He stopped to say "hello" to his grandfather.

His grandfather looked him over and said: "Why, son, you look more like your mother every day."

"What makes you think so?" asked Bert.

"Why because your father had a mustache that come down to his chin."

## NERVE-SPEED WHEN NEEDED

Lack of Reserve Force Cause of Most Failures in the Daily Affairs of Life

To feel weary without having earned it by hard work throws the mind into disorder and confusion.

A hundred people describing their weary condition would each tell it differently. One says: "I feel tired." Another: "I feel nervous." A third: "I feel depressed, apprehensive, moody, or irritable." These are all different ways of saying the same thing. To this great class of sufferers come: Reckle, one of the greatest reconstructive agencies ever devised for definite accomplishment. It intensifies the activity of the vital processes, provokes increased flesh, stimulates the production of red corpuscles, contributes to the defense of the system against depletion and consequent exhaustion. In many other ways arouses the functional processes to make you feel that something has touched that one flickering vital spark you thought was about to go out. No amount of description can adequately convey the difference between the feeling of lack of nerve speed and the rebound the freedom, the liberation from depressions that cause so many men and women to fall in their tracks, to go to sleep at the switch or stand still when the order is to go ahead. If you would really like to get acquainted with your real self get a \$1.00 box of Reckle today. Ask any of the clerks at Finney's Drug store or any other leading drug store.

Just look at that one of yours; you must take after your mother! Indianapolis News.

Impulsive.

The precious infant had just returned from his first day at school registering intense ennui. The anxious family gathered around.

"Donald," asked his mother, "what did you learn today?"

"Nothing."

"What, nothing at all?"

"Nope; there was a woman there who wanted to know how to spell cat, so I told her. That's all."—American Legion Weekly.

Getting Along.

"I guess I'm getting old."

"Nonsense, Bill, you're only 45."

"I know. But I was just introduced to a woman of 30, and she started to act like a little girl."—Louisville Courier.

Mother Goose, Linguist.

Mary's mother was improving the shining hours with a little French conversation, which Mary, aged 4, was finding somewhat irksome. To some remark her mother replied "Out, out," at which Mary said in an exasperated tone:

"Don't talk that big talk to me."

"That isn't big talk, dear, it's."

"Yes, it is, too, mother. That's just what the little pig said all the way home."—Harper's.

Week Ending.

"So you spent Sunday with Sub-

burbs, did you? Is his house far from the station?"

"About two miles as the dust flies."—Sketch.

Strange.

"There's one thing I can't understand about these spirit communications," remarked Mr. Brown, as he finished reading the account of a highly successful seance.

"What's that, John, dear?" asked his wife.

"Why you never hear of a departed soul having gone any other place except straight to heaven."—New York Post.

Playing Safe.

Teetotaler (to passenger who keeps taking nips from a bottle)—Do you know any man that I never tasted spirits in my life?

Fellow Passenger (putting flask in his pocket)—Really! And do you know, my man, that you ain't a-goin' to begin here, neither?

Makes a Family Supply of Cough Remedy

Really better than any-made cough remedy you could get. Really and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough-syrup, which is easily prepared in a few minutes.

Get from any drugist 2 1/2 ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar-syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough-syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat ticks and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

To avoid disappointment, ask your drugist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., St. Wayne, Ind.

The Prices May Have Caused It: BY ALLMAN

## Come North, Young Dentist, Is Greenland's Plea

(N. E. A. Staff Special.)  
Christiansburg, Greenland, Jan. 25.—Wanting an American dentist, Greenland hangs out the sign. There's a fine opportunity for a good dentist, or maybe two or three dentists, to clean up a fortune. For an Eskimo society queen will pay any price for a good set of teeth. There's practically no sale of rouge and lip-sticks among the Eskimos. When a youth fairs forth to seek a mate, he doesn't consider beauty. Or family wealth. Or good temper. He wants her to be fat and healthy—and have good teeth. That's the use of having a wife if she can't chew hides until they are pliable and ready to wear? Chewing hides, season in and season out, is rather tough on the teeth. When a wife has chewed hides until her teeth are gone, she is no longer useful. That's the unwritten law of the Far North. The husband, by the same tradition, is allowed to search for another set of teeth—including another wife.

## ONLY ONE WITNESS

Story of Salsedo's Death to Be Told in Palmer Suit

(N. E. A. Staff Special.)  
New York, Jan. 24.—Interesting testimony will be presented in the suit brought against Atty. Gen. A. Mitchell Palmer by the widow of Andrea Salsedo, who died in a plunge from the fourteenth story window of the Park Row building.

Salsedo had been secretly held a prisoner for two months by Palmer's agents.

They were grilling Salsedo about "Red" plots.

What happened during the two months' imprisonment was witnessed by Roberto Elia, who had worked as a printer with Salsedo.

After Salsedo's death Elia was quickly and quietly deported.

But Elia told his story before he went. He has put in affidavits that he saw and knew about the imprisonment of Salsedo from the latter's nuptial cases of rickets and other hunger diseases.

The famous stockyards of Vienna, a model plant, the work which shows no absolute, empty, except for a small part where an American relief agency keeps its cars and supplies.

The average daily milk supply reaching the city has been for a year about one-fifteenth of normal.

The average educated man in Vienna is struggling manfully to support his family on an income of from three to six thousand crowns a month, six to twelve dollars in American money. Potatoes cost 25¢ times their pre-war price. Boots have gone up 1,000 per cent.

I had not been in the city 24 hours before the depression which I saw on face after face chilled me. It is a city without cash, with hardly any food with a paper currency worth 1-15th of its normal value, with a government whose credit is less than that of a prosperous business man in New York.

Vienna Hard Pressed to Feed Her Citizens

BY BARRY C. SMITH  
(Editor's Note—Barry C. Smith has just returned from a two months' trip through France, Austria and Serbia for the purpose of studying the work of American relief agencies.)

I have just come from Vienna, once the world's famous center of art, of music, of pleasure, of joy and happiness. On Dec. 5, the American Relief Administration was feeding 33,000 children every day. Hundreds were in the hospitals suffering from frightful cases of rickets and other hunger diseases.

## BOARDING HOME FOR BABIES

Institution in England Had Its Inception in the Shortage of Houses, and Housemaids.

A small, private hotel for babies is the latest idea of domestic life. The baby gets a change and the mother gets a rest.

The baby's hotel or boarding house is the product of the shortage of houses and housemaids. Parents have been forced into hotels and furnished apartments, and as many hotels have not the conveniences of the nursery, the baby's hotel, where he or she may be nursed as a paying guest, is making its appearance. There is, of course, accommodation for the baby.

Two detailed nurses conceived the idea. They have established a nursery in Hampstead, London. The walls are decorated with ducks and chickens, and each little guest has a white cot with curtains. A medical man and a nurse are in attendance. The month's stay is about \$13 a week. The little guests stay a week, a year, or merely for the week end, while their parents go on holiday making.

A young man, who has just returned from his former post as secretary brought his baby to the nursery, and Saturday afternoon and Sunday they spent happy hours together, while another woman left her little one in our charge while she rejoined her husband in the tropics.

But the worst thing about Socialism and bolshevism are the leaders who get control under such regimes: "Don't worry about bolshevism and socialism becoming a dominant force. They can't, for the men in the van of these movements are not worthy of the confidence of the masses and can't keep it even if they seem to have won it for a time."

Bismarck, a physician with a large practice, went into office backed by one of the largest majorities ever received by a mayoral candidate. Five of his colleagues were elected to council, this giving them a majority.

From almost the start the mayor disagreed with the councilmen, the open break following.

For European Children.

Italy and neighboring countries, especially Switzerland, at the end of October held at Milan a conference on child welfare to discuss, more specifically, seaside and country homes for needy children, placement of children in foreign countries, vacation camps; also provision of institutional care in cities; state, local and international organization of child welfare; better training of social workers engaged in child welfare service, and improvement of technique generally.

The public welfare department of the city of Milan, which called this conference, is especially concerned over the duplication of efforts, the lack of proper care in the smaller communities and interaction between town and country. One definite aim is that of making international co-operation in this field a means of encouraging closer relationship between the peoples.

Immense Herds of Caribou.

Late arrivals at Vancouver, B. C., from the Yukon report that wandering herds of caribou are appearing in unusual numbers on the banks of the river. They declare there are millions of the animals. Two men who tried to get down the river just at the time of the first ice were held up for three hours by a multitude of caribou which were crossing the river below them. How long the migration had been going on when they were stopped they did not know. The stream of animals blackened the water on a space one-half mile wide and continued unintercepted during the period the men were held up.

Egypt to Have Finest Hospital.

The Egyptian government has decided to build what is officially described as "the finest and most complete medical school and hospital in the world," in Cairo. It is to contain 1,225 beds, and will have accommodation for 3,000 outpatients a day. Attached will be a completely equipped medical school, which will be connected with the protected university, a special dental department and departments for every branch of medical and surgical science.

## HAVE KEEN EYE FOR DANGER

Hunter Asserts That It Is Practically Impossible to Surprise the Mountain Sheep.

"The mountain sheep is one of the most difficult of all our American game to approach in the open," says Charles L. Smith in an article on the "Rocky Mountain Sheep" in Boys' Life. "It has eyes like a telescope for keenness and can discover and make out a man further away than any other animal of which I have any knowledge, and where any considerable herd have been feeding one will see usually one or more standing on some prominent point where they can get a view of the surrounding country. I know of no more inspiring sight than one of those old rams with his massive horns outlined against the sky, standing as motionless as a statue. And it is a wonder to the hunter how they get across the steep slopes with such ease and grace. There has been much written of the mountain sheep, of its wonderful feats of springing from ledges and falling upon its head and horns, and of its will to combat in the face of a bullet."

While it is true they can stand a tremendous shock in battle, yet it is one of those sheep weighing 200 pounds could drop from a ledge of any considerable height and land on his head his neck would be broken. I spent several years in the sheep country in the Canadian Rockies and was near the sheep or among them during all seasons of the year and they seem to be less sensitive to the rigors of winter and the ever-changing elements of the high altitudes than any other animal except possibly the mountain goat. And of these animals I think they have the advantage, because I have a number of these famous mountain goats climbed in the deep snow in places where food was scarce, but I have never yet found mountain sheep in this condition."

# BUILDING YOUR BUSINESS PRINTING

With Machinery That Has Automatic Intelligence and Correctness

Tribune's New Commercial Printing and Newspaper Establishment, Fourth and Thayer Streets

The business man has always been particular with his business stationery, for when he addresses a letter to a customer or business firm, the first thing he wants to see is a well arranged and perfect printed sheet.

In order to meet the desired accuracy in printing, we have installed **AUTOMATIC SELF-FEEDING MACHINES** which pick up each individual sheet of paper by air suction that is to be printed. This sheet is perfectly placed to the guide pins with more than human intelligence, accuracy and correctness.

With this air pressure process of printing individual sheets, there is absolutely no chance for a sheet of paper to be printed crooked which happens with hand fed sheets.

No doubt **MR. BUSINESS MAN** you are soon going to have some kind of business printing done and when you are ready to place your order, get in touch with us and we will have our representative call on you and talk it over.

**OUR AUTOMATIC AIR FEEDERS** will carry and print any size sheet of paper 8x4 to 38x50 inches and print it perfectly and straight.

## Letter Heads, Statements, Cards, Booklets and Catalogs

Our Bindery Department can manufacture all kinds of  
**Blank Books, Ledgers and Special Ruled Sheets**

### QUINTETS WILL BATTLE FOR N. D. CHAMPIONSHIP

High School League to Hold District and State Tournaments

District tournaments in the state-wide basketball tournament will be held on March 4 and 5 at eight different places in the state.

This district, which is in charge of C. F. Holt, superintendent of the Bismarck high school, will hold its games alternately at Mandan and Bismarck.

The western district will hold its games at Dickinson. It will be in charge of S. T. May. The high schools which will send their teams there are Dickinson, Bowman, Hettinger, Beach, Mandan and Bellevue.

The following teams will play at Devils Lake, with C. A. Kittrell as district director: Devils Lake, Minnewaukan, Leeds, Churchco, Perry, Lakota, Cando, Rolla, Starkweather, Egeland, Michigan, McVie, Edmore and Maddock.

Minot will be headquarters for the following teams: Minot, Berthold, Stanley, Wittiston, Drake, Velva, Granville, Towner, Anamoose, Harvey, Rugby and Bottineau.

### The Insider Says

So odd! The day may be far off But surely twelfth arrive— You may not think it so, But odds are 8 to 5.

For many fair amount, Some heavyweight will make Jack Leppsey take the count.

The two Loomis brothers—Joe and Frank—will kick up their heels in the Millrose games at Madison Square Garden in February.

English amateur boxers sent to this country make a bigger hit than the pros.

Denny Leonard's meal ticket is nearly punched clean. Willie Jackson and Lew Tendler now ask a king's ransom to help Denny win the plate.

The birds will soon be singing! Which reminds us that it takes but 30 seconds of twittering for a ring champion to pass.

Joie Ray feels like he had another good race in his system. He'll run the mile-and-a-half in the Millrose games in New York in February.

India has tossed its turban in the ring for a chance to help poison up the Davis Cup.

Wild Bill Donovan acquired his prefix before he busted into the majors back in 1908. He's already forgotten the wildest game he ever pitched.

Kilbane imitates "The Thinker." There's no law against it.

Barnyard golfers are warming up their pitching arms for the horseshoe championship match at St. Petersburg, Fla., beginning Feb. 22.

Jimmy Dugan, trainer of the Boston Red Sox, will handle Ty Cobb's ball players this year. Jimmy is an

### FEATHERS IN THE WIND!

KILBANE

A little thinking before you leap doesn't do any harm. That's the way Featherweight Champion Johnny Kilbane sizes up the contract for his coming title battle.

Johnny sits himself down. He takes a pencil in his crippled hands. He compares the parades other champions are getting. At the end of a long column of figures he dopes it that the feather crown is worth \$50,000 or thereabouts.

He might not lose it. But the risk is great. Kilbane's hair is no longer thick and black. It's thinning about the temples. Strokes of silver-gray tell the tale of years piled up behind him.

And the opponents—they are young. They have all to gain. They are comers.

Kilbane has seen Andy Chaney, the blond Marylander, go at close range in his recent bouts with Johnny Murray and Willie Beecher.

The blond Marylander fights ten rounds all alike. He travels the whole route like a streak. His hitting isn't so hard. But his stamina is incomparable.

Chaney will box Kilbane for training expenses if Johnny can get his price and a promoter to handle it. So Kilbane is thinking hard. Better figure now than after they raise the other fellow's hand in victory.

become Babe Ruths. The Bambino is said to time his bat with the ball perfectly, you know.

ANDY CHANEY

ing expenses if Johnny can get his price and a promoter to handle it. So Kilbane is thinking hard. Better figure now than after they raise the other fellow's hand in victory.

Joe Welling and Richie Mitchell may hobb up at Madison Square Garden. It's one fight in which they won't announce that the "winner is to get a

crack at the champion." They're both had their crack—and been cracked!

Left Earful. Buck Weaver's in a hurry for his trial and judgement day! "I'll bet 500 bucks," says Buck. "I'm cleared—and that I'll play!"

Sam Rice who steals bases for the Nationals like a six-day hike rider steals taps, will boll out at Hot Springs, Ark., before going to Tampa.

Right Earful. For honor once the boxers fought. 'Twas long ago, we hear. But now they say: "Pay us in cash. Much Jack we'll have this year!"

If Home-run Baker is for sale by the Yanks, Clark Griffith will bid like a banker.

Over 70 truck gallopers are out at Notre Dame. Among them are Gus Deach and Jimmy Murphy, Olympic Games stars.

Bert Gulick of Syracuse is a candidate for Coach Ten Eyck's rowing crew. Gulick is captain-elect of the 1921 Orange eleven.

Cobb was called temperamental because he couldn't sleep in a certain hotel, due to the noise of the trains. The world must be full of temperamental birds.

Atlantic City plans to build an athletic stadium that will cost \$5,000,000 when completed. It will make a bid to handle the Army and Navy football annuals.

There's nothing tickles a manager's ear. Quite like news of a find Unless it is the old envelope Announcing a vet that's signed.

Tex Rickard has paid over \$200,000 in taxes to the government for sixteen boxing shows. These entertainments have brought \$800,000 through the gate.

Prexy Bill Klepper of the Seattle Swashes has notified "Tex" Westerzill to quit playing ball on the same lot with Fred McMullin, an alleged White Sox black sheep.

GARAGES VERSUS HOMES New York. Why are homes hard to find? Answer: 482 garages were built in Manhattan last year, but only 22 tenements and 22 houses.

### PITY FOR CADDIES!

English Golf Comet Is Coming in July

During his flying trip he played 34 over 70 matches. The Briton wasn't defeated when playing on even terms.

He drives the ball almost as far as Mitchell—the King of distance drivers. Abe won five of the big English tournaments last season.

The two English golf stars will make a tour of the American links similar to the Varian and Ray tour.

Our "pros" will have their work cut out to beat the visitors. And the caddies! Well Duncan will probably wear out several dozens of 'em.

"DISORDERLY FLYING" Galveston—Ranger Jackman arrested an aviator on a charge of "disorderly flying." Said the aviator was juggling his plane, barely missing rooftops and telephone wires.

MASTS OF MAYFLOWER London.—The original masts of the Mayflower, ship of the Pilgrims, are believed to be in a schoolhouse on the banks of the Thames. Dr. Randal Harris told members of the English Mayflower that the masts have been in the school for many years.

SPOON BLUFFS THIEF. New York.—"Behave yourself!" commanded Miss Bertha A. Miller as she jabbed something shiny into the ribs of Michael Amio, who had broken into her apartment. Amio kept his hands up until the police came. The shiny thing was a silver spoon.

WAS SHARK AT PICNIC? Sydney, Australia. Jan. 24.—A 12-foot shark caught at Woy Woy contained a full tin of mustard and an empty lemonade bottle. It also contained part of a lady's bathing suit.

SHIMMY RECEIVES O. K. Evanston, Ill.—The shimmy and the toddle are reinstated at Northwestern University. The rule against them drove undergraduates to outside dances. The faculty wants them back where they can supervise their steps.

THE PACE THAT KILLS. New York, Jan. 25.—Dr. A. L. Goldwater of the Medical Review of Reviews is conducting a nation-wide survey to determine whether it is the slow or fast pace "that kills." The result is expected to be of use to business men.

George Duncan, the British open golf champ, is coming to U. S. in July. He'll enter the annual open fray next summer with his partner, Abe Mitchell, another English golf super.

The pair ranks with Vardon and Ray, who toured the United States last summer. And incidentally Ray took our golf cup back with him.

Duncan is the fastest man on the links today. He doesn't waste time in making shots, but walks up to the
